

Lead Safety Information

Effective January 1, 2019, [AB2370](#) requires all child care providers to provide the parent or guardian with written information including the following:

- Risks and effects of lead exposure
- Blood lead testing recommendations and requirements
- Options for obtaining blood lead testing, including any programs that offer free or discounted tests.

The following papers are written in partnership with the California Department of Public Health. Please sign below and return to your child’s teacher as soon as possible so we can include it in your child’s file.

Thank you,

FUMPS Staff

I, _____, legal representative

of _____, have received the “Lead Safety Information” as required by California Law, AB 2370, 2019.

Date:_____.
